

REQUEST FOR PROPOSAL

Project Title: Digital Procurement and Supplier Management Platform

Client Name: National Procurement Services Authority

Submission Deadline: 5 November 2026, 2:00 PM

1. Background

The authority intends to implement a centralized digital platform for procurement planning, supplier registration, tender management, contract monitoring and procurement reporting.

2. Project Objectives

The platform must improve procurement visibility and provide authorized users with centralized supplier and contract information.

3. Technical Requirements

The bidder must provide a secure web-based application.

The platform shall support role-based access control.

The system must maintain an audit trail for user activity.

The bidder shall provide encrypted data transmission.

The system must support automated notification workflows.

The bidder is required to provide database backup procedures.

The platform shall provide configurable reporting dashboards.

The bidder must provide API documentation.

4. Functional Requirements

The system must support supplier registration and approval.

The bidder shall provide electronic tender submission workflows.

The system must support evaluation committee workflows.

The platform shall provide contract milestone tracking.

The system must provide procurement performance reports.

The bidder shall provide configurable email notifications.

5. Deliverables

- Requirements Specification
- Solution Architecture
- Supplier Registration Module
- Tender Management Module
- Contract Management Module

Deliverable	Priority	Timeline
- Reporting Dashboard - API Integration		
- Administrator Training Requirements Specification - Technical Documentation	High	15 days
Solution Architecture	High	20 days
Supplier Registration Module	High	45 days
Tender Management Module	High	60 days
Contract Management Module	Medium	75 days
Reporting Dashboard	Medium	60 days

6. Implementation Schedule

The bidder shall provide a detailed implementation plan.

The bidder must complete system deployment within six months.

The vendor shall provide at least two rounds of user acceptance testing.

The bidder must provide administrator training before production launch.

7. Security and Compliance

The bidder must comply with applicable information security requirements.

The system shall maintain access logs for audit purposes.

The vendor must report security incidents according to the agreed SLA.

8. Commercial Information

Estimated Budget: USD 120,000 - USD 180,000

Contract Duration: 12 months Commercial Item Warranty Period: 12 months	Amount	Unit
Implementation	1	Project
Training	6	Sessions
Support	12	Months
Warranty	12	Months

9. Proposal Submission

The bidder must submit a technical proposal and commercial proposal.

The bidder shall provide at least three relevant project references.

The bidder must identify the proposed project team.

The bidder shall provide a detailed implementation methodology.

10. Evaluation Criteria

Technical capability

Relevant experience

Implementation methodology

Security approach

Commercial proposal

11. Final Deliverables

- Production-ready procurement platform
- Source and technical documentation
- Administrator training materials
- API documentation
- Deployment and configuration guide
- Warranty and support documentation
